

Listing of all pending claims:

1. (Currently amended) A computerized method for collating experiences of an interactive user Internet session, comprising the steps of:

archiving a plurality of a user's Internet experiences in correspondence with correlated decisions and outcomes;

arranging the decisions and outcomes in accordance with a predetermined scheme; and

presenting the user with advertisements relevant to the ~~users~~ user's Internet experiences;

printing a start-to-finish compilation of a multi-step activity corresponding to the user's Internet experiences in accordance with a selected printing option; and
dynamically generating at least one of a front and a back book cover.

2-4. (Please cancel claims 2-4.)

5. (Currently amended) The method of claim 1 [3], wherein the selected printing option includes, for the start-to-finish compilation, dynamically generating one of a table of contents and an index.

6. (Currently amended) The method of claim 1 [3], wherein the selected printing option includes one of:

dynamically generating images to accompany written information for the start-to-finish compilation; and

dynamically selecting images to accompany written information for the start-to-finish compilation.

7. (Currently amended) The method of claim 1 [3], wherein the selected printing option includes, for the start-to-finish compilation, dynamically generating a listing of related further reading.

8. (Currently amended) The method of claim 1 [3], wherein the selected printing option includes, for the start-to-finish compilation, dynamically generating a preselected book feature.

9. (Original) The method of claim 1, wherein the arranging step further comprises arranging a start-to-finish compilation in a non-book format.

10. (Original) The method of claim 9, wherein the arranging step further comprises generating an audio stream.

11. (Currently amended) A method of providing and managing a pick-a-path experience for a set of interactive user Internet sessions, comprising the steps of:

archiving user decisions and outcomes of the interactive user Internet sessions; and

compiling and publishing the user decisions and outcomes for a selected portion of a complete set of the interactive user Internet sessions, wherein

the compiling and publishing steps include presenting advertisements to the user that are relevant to the interactive user Internet session and wherein

the publishing step includes printing a start-to-finish compilation of a multi-step activity of the user's Internet experiences in accordance with a selected printing option.

12. (Original) The method of claim 11, wherein the pick-a-path experience is one of: an educational experience, a simulation, an entertainment experience, and a gaming experience.

13. (Original) The method of claim 11, wherein the pick-a-path experience includes a plurality of activity goals.

14. (Original) The method of claim 13, wherein the step of compiling and publishing includes publishing user decisions and outcomes that have been archived for at least one of the activity goals.

15. (Original) The method of claim 11, wherein the pick-a-path experience incorporates user interactivity and is designed to include content that provides cliff-hanger anticipation to attract users to a hosting website.

16. (Currently amended) The method of claim 11, wherein the set of the interactive user Internet sessions includes incorporating advertising in printed pages in accordance with a ~~predetermines~~ predetermined scheme.

17-33. (Claims 17-33 are canceled.)
